<tr>
<td>Cartridge</td>
<td>300 grams</td>
<td>Clear</td>
</tr>
</tbody>
</table>

**Uses**
- Sealing, bonding and filling
- Suitable for wet or dry surfaces
- Interior/exterior use
- Use for glass, metal, timber, brick, concrete, tiles and most plastics

**Technical Features**
- High strength bond
- Water and weather resistance
- Excellent adhesion
- Highly durable
- Highly versatile
- Interior & exterior
- Paintable
- Non-cracking
- UV Resistant
- Mould resistant
- Fast grab
- Low VOC

SELLEYS 3 IN 1 CLEAR

Directions for Use
Cut tip and attach nozzle. Insert in caulking gun. Cut nozzle to required size.

Adhesive
Apply to one surface, in beads for broad surfaces (every 30cm) or dots for small surfaces. Press surfaces together and allow to cure.

Sealant
Apply product, ensuring it is forced into the joint, with good contact to surfaces. Tool with a soap solution before skinning occurs.

Filler
Apply product into gap. Smooth off with spatula dipped in soapy water. Allow to skin before painting with water-based paints.

Tips
For neater joints, mask sides before applying sealant and remove tape before sealant skins. Larger, heavier items need to be supported until the adhesive cures.

Clean Up
Uncured product may be removed with mineral turps. Cured product can be removed by scraping or sanding or with the help of Silicone Remover.

Storage
Store in cool, dry conditions below 30°C. Use within 6 months of opening.

Limitations
Cannot be painted with solvent based paints. If required, paint with a water-based paint first.

#Not for Polyethylene, Polypropylene or Teflon.

Warnings, First Aid and Shipping Information
This information can be located on the product SDS found through our website – www.selleys.com
